Using This Guide

The purpose of this guide is to help suppliers understand the business processes required by MAHLE.

You may navigate this guide by:

- Clicking the buttons in the toolbar
- Clicking the hyperlinks on the pages – Hyperlinks may be words or shapes within the graphics
- Using the bookmark panel to the left

If you need additional help, you will find a help button at the bottom of each page that will assist you in finding the appropriate support contact.

Tabs in the lower left corner link out to our Community Support pages. Look for these to answer your most common questions.

SECTION 1: Ariba Network Overview

What is Ariba Network?

MAHLE Project Scope

Supplier Value

Supported Documents

Not Supported Documents
What is Ariba Network?

MAHLE has selected Ariba Network as their electronic transaction provider. As a preferred supplier, you have been invited by your customer to join Ariba Network and start transacting electronically with them.
Review MAHLE Specifications
Supported Documents

MAHLE project specifics:
• **Tax data** is accepted at the header/summary level or at the line item level of the invoice.
• **Shipping data** is accepted at the header level. If Collaborative Supply Chain is enabled, Shipping details are added at the header/summary level of the invoice.

Supported
• **Purchase Order Confirmations**
  Apply against a whole PO or line items
• **Detail Invoices**
  Apply against a single purchase order referencing a line item
• **Partial Invoices**
  Apply against specific line items from a single purchase order
• **BPO Invoices**
  Invoices against a blanket purchase order
• **Credit Invoices/Credit Memos**
  Item level credits; price/quantity adjustments
Review MAHLE Specifications
Not Supported Documents

NOT Supported:

- **Advance Shipment Notices**
  Apply against PO when items are shipped

- **Service Entry Sheets**
  Apply against a single purchase order referencing a line item

- **Service Invoices**
  Invoices that require service line item details

- **Contract Invoices**
  Apply against contracts

- **Non-PO Invoices**
  Apply against a PO not received through Ariba Network

- **Summary or Consolidated Invoices**
  Apply against multiple purchase orders; not accepted by MAHLE

- **Invoicing for Purchasing Cards (P-Cards)**
  An invoice for an order placed using a purchasing card; not accepted by MAHLE

- **Duplicate Invoices**
  A new and unique invoice number must be provided for each invoice; MAHLE will reject duplicate invoice numbers unless resubmitting a corrected invoice that previously had a failed status on Ariba Network

- **Paper Invoices**
  MAHLE requires invoices to be submitted electronically through Ariba Network; MAHLE will no longer accept paper invoices

- **Header Level Credit Memos**
  The Header Level Credit Memo feature is not supported by MAHLE
SAP Ariba Can Help You...

Collaborate immediately with all trading partners
- Immediate access to online invoice creation tool
- Automation and catalog posting for your buyers in <8 weeks

SECTION 2: Set Up Your Account

Basic Account Configuration
- Configuration Requirements
- Accept Invitation
- Profile Completion
- Email Notifications

Enablement Tasks
- Enablement Tasks
- Purchase Order Routing
- Invoice Notifications
- Tax Details
- Remittances

Advanced Account Configuration
- Customer Relationships
- Roles and Users
- Enhanced User Account Functionality
- Multi-Orgs
- Test Accounts
MAHLE Specific Account Configuration

• **VAT ID / TAX ID** – select Company Settings in the top right corner, go to Company Profile and select tab Business. In the section Financial Information enter your Vat ID / Tax ID.

• **Remittance Address** – select Company Settings in the top right corner and go to Remittances. In the EFT/Check Remittances section select Create and complete all required fields marked by an asterisk.

• **Payment Methods** – select Company Settings in the top right corner and go to Remittances. In the EFT/Check Remittances section select Create/Edit. In the Payment methods section choose one of the following options: ACH, Check, Credit card or Wire. Complete the details. The Remittance ID will be communicated to you by your buyer.

• **Test Account Creation (testing is required for integrated and catalog suppliers)** – To create a test account, select your name in top right corner and choose “Switch to Test ID.”

• **Currency** – The currency that Ariba Network uses in the service subscription area of your account is controlled by your organization’s location, which you specify in User Account Navigator > My Account > Preferences.
Accept Your Invitation

The invitation is also referred to as the Trading Relationship Request, or TRR. This e-mail contains information about transacting electronically with your customer.

Click the link in the emailed letter to proceed to the landing page.

- Existing User

Ariba Network

Welcome to Ariba® Network

SMO Buyer has invited you to join Ariba Network.

New User

Are you new to the Ariba Network? If you do not have an account and would like to participate, click Register Now. By signing up with the Ariba Network, you will establish a trading relationship with your requesting customer. Your new account will also be visible to other buying organizations on the Ariba Network.

- Register Now
- I have further questions for my requesting customer

Existing User

If you already have an Ariba Commerce Cloud or Ariba Discovery account, enter your existing username and password and click Confirm to log in to the Ariba Network.

Username: [ ]
Password: [ ]
Forgot Password?

When you confirm your existing username and password, Ariba will send a notification to your requesting customer, informing them that you already have an Ariba Network account and that you have accepted their trading relationship request.
Register as New User

1. Click Register Now.

2. Enter Company Information fields marked required with an asterisk (*) including:
   - Company Name
   - Country
   - Address

3. Enter User Account information marked required with an asterisk (*) including:
   - Name
   - Email Address
   - Username (if not the same as email address)
   - Password

4. Accept the Terms of Use by checking the box.

5. Click Register to proceed to your home screen.
Accept Relationship as Existing User

Log in using your current Ariba username and password in order to accept the relationship with your customer.

Existing User

If you already have an Ariba Commerce Cloud or Ariba Discovery account, enter your existing username and password and click Confirm to log in to the Ariba Network.

Username: [ ]
Password: [ ]

Forgot Password?

Confirm

When you confirm your existing username and password, Ariba will send a notification to your requesting customer, informing them that you already have an Ariba Network account and that you have accepted their trading relationship request.
1. **Select** Company Profile from the Company Settings dropdown menu.

2. **Complete** all suggested fields within the tabs to best represent your company.

3. **Fill** the Public Profile Completeness meter to 100% by filling in the information listed below it.

**Note:** The more complete a profile, the higher the likelihood of increasing business with existing and prospective customers.
Configure Your Email Notifications

The Network Notifications section indicates which system notifications you would like to receive and allows you to designate which email addresses you would like to send them to.

1. **Click** on Notifications under Company Settings.

2. **Network Notifications** can be accessed from here as well, or you may switch to the Network tab when in Notifications.

3. **You can enter** up to 3 email addresses per notification type. You must separate each address with a comma but include NO spaces between the emails.

Note: If you are out of the office, make sure to include in your auto-reply messages one of the following phrases. This will prevent Ariba Network from failing orders sent to mailboxes responding using an auto-reply feature:

*Out of office, OOTO, On vacation, on holiday, out of town, away from the office, away until, out of the country, an off site meeting.*

When Ariba Network detects an auto-reply containing one of these phrases, it indicates that it received the auto-reply in the order history log and does not fail the order.
Configure Your Enablement Tasks

1. **From** home screen, select the Enablement Tab.
2. **Click** on the Enablement Tasks are pending link.
3. **Select** necessary pending tasks for completion.
4. **Choose** one of the following routing methods for Electronic Order Routing and Electronic Invoice Routing: Online, cXML, EDI, Email, Fax or cXML pending queue (available for Order routing only) and configure e-mail notifications.

**Note:** There may be times you see a pending task for your customer. This will not go away until your customer completes it.
Select Electronic Order Routing Method

1. Click on the Tasks link to configure your account.
2. Choose one of the following routing methods:
   - Online
   - cXML
   - EDI
   - Email
   - Fax
   - cXML pending queue (available for Order routing only)
3. Configure e-mail notifications.
Route Your Purchase Orders
Method Details

• **Online (Default):** Orders are received within your AN account, but notifications are not sent out.

• **Email (Recommended):** Email notifications are sent out, and can include a copy of the PO, when orders are received within your AN Account.

• **Fax:** Notifications of new orders are sent via Facsimile, and can include a copy of the PO as well as a cover sheet.

• **cXML/EDI:** Allows you to integrate your ERP system directly with Ariba Network for transacting with your customer. Please contact <<Enablement Email>> to be connected with a Seller Integrator who will provide more information on configuration.
Select Electronic Order Routing Method

Notifications

1. **Select** “Same as new catalog orders without attachments” for Change Orders and Other Document Types to automatically have the settings duplicated or you may set according to your preference.

2. **Specify** a method and a user for sending Order Response Documents (Confirmations and Ship Notices).
Select Electronic Invoice Routing Method
Methods and Tax Details

1. **Select** Electronic Invoice Routing.
2. **Choose** one of the following methods for Electronic Invoice Routing: Online; cXML; EDI.
3. **It is recommended** to configure **Notifications** to email (the same way as in Order Routing).
4. **Click** on Tax Invoicing for Tax Information and Archiving sub-tab to enter Tax Id, VAT Id and other supporting data.
Configure Your Remittance Information

1. From the **Company Settings** dropdown menu, select click on **Remittances**.

2. **Click** Create to create new company remittance information, or **Edit**, if you need to change existing information.

3. **Complete** all required fields marked by an asterisk in the EFT/Check Remittances section.

4. **Select** one of your Remittance Addresses as a default if you have more than one. If needed, assign **Remittance IDs** for this address for each of your customers. Clients may ask you to assign IDs to your addresses so they can refer to the addresses uniquely. Each client can assign different IDs.
Configure Your Remittance Information
Payment Methods

1. **Select** Preferred Payment Method from a drop-down box: Check, Credit card or Wire.

2. **Complete** the details for ACH or Wire transfers.

3. **Select** if you do or do not accept credit cards and click OK when finished.

**Note:** This does not change the method of payment from your customer, unless specified.
Review Your Relationships
Current and Potential

1. **Click** on the Customer Relationships link in the **Company Settings** menu.

2. **Choose** to accept customer relationships either automatically or manually.

3. **In the Pending Section**, you can Approve or Reject pending relationship requests. In the Current Section, you can review your current customers’ profiles and information portals. You can also review rejected customers in the Rejected Section.

4. **Find** potential customers in Potential Relationships tab.
Set Up User Accounts
Roles and Permission Details

**Administrator**
- There can only be one administrator per ANID
- Automatically linked to the username and login entered during registration
- Responsible for account set-up/configuration and management
- Primary point of contact for users with questions or problems
- Creates users and assigns roles/permissions to users of the account

**User**
- Up to 250 user accounts can exist per ANID
- Can have different roles/permissions, which correspond to the user's actual job responsibilities
- Can access all or only specific customers assigned by Administrator
Set Up User Accounts
Create Roles and Users (Administrator Only)

1. **Click** on the Users tab on the **Company Settings** menu. The Users page will load.

2. **Click** on the **Create Role** button in the Manage Roles section and type in the Name and a Description for the Role.

3. **Add** Permissions to the Role that correspond to the user’s actual job responsibilities by checking the proper boxes and click save to create the role.

4. **To Create** a User Click on Create User button and add all relevant information about the user including name and contact info.

5. **Select** a role in the Role Assignment section and Click on Done. You can add up to 250 users to your Ariba Network account.
Set Up User Accounts
Modifying User Accounts (Administrator Only)

1. **Click** on the Users tab.
2. **Click** on Edit for the selected user.
3. **Click** on the Reset Password Button to reset the password of the user.

4. **Other options:**
   - Delete User
   - Add to Contact List
   - Remove from Contact List
   - Make Administrator
1. **Click** on your name in top right corner, to access the User Account Navigator. It enables you to:
   - Quickly access your personal user account information and settings
   - Link your multiple user accounts
   - Switch to your test account
   **Note:** After your multiple user accounts are linked, the User Account Navigator displays the multiple accounts.

2. **Click** on My Account to view your user settings.

3. **Click** Complete or update all required fields marked by an asterisk. **Note:** If you change username or password, remember to use it at your next login.

4. **Hide** personal information if necessary by checking the box in the Contact Information Preferences section.
Ariba offers invoice consolidation and synchronization for customers with several accounts

- Fees will be invoiced only to the parent account with the payment cycle synchronized for the entire group.
- The parent account will receive one single invoice every three months for all customer relationships and for all linked accounts.
- This consolidation is related only to invoices issued by Ariba to the supplier, the business operations of each account are still independent.
Participate in a Multi-Org Guidelines

- The supplier needs to designate a **Parent ANID** under which the invoice will be viewed.
- The selection of the parent ANID determines the currency of the Multi-org invoice and the billing dates.
- The supplier should also have confirmed list of child ANID’s to be included on the invoice.
- A Multi-Org is NOT:
  - A way to merge accounts.
  - A way to get a discount on Transaction Fees.
Structure Your Multi-Org

1. **Register** all accounts which will be included in the Multi-Org.
2. **Create** a list of all ANIDs and designate the parent account.
3. **Wait** until the first ANID becomes chargeable.
4. **Contact Customer Support** through the Help Center and inform them of your need for the Multi Org.
Link Accounts Via an Account Hierarchy

Linkage between individual accounts for account management purposes

The administrator of the Parent account can log into the child account and take the following actions:

- Change settings on the child account and complete the company profile
- Publish catalogs
- Check the status of payment for the Ariba invoice and pay the invoice
- Upgrade to a higher Subscription package

The administrator of the Parent account cannot take following actions:

- View buyers on the Child account
- Create any documents (PO confirmations, Ship Notices, Invoices)
- Run Reports
Create an Account Hierarchy

1. **From** the **Company Settings** menu, click Account Hierarchy.

2. **To add** child accounts click on Link Accounts.

3. **The Network** will detect if there is an existing account with corresponding information.

4. **On the next page** either log in as an Administrator or send a request through an online form as a Not Administrator.

5. **Once** the request is confirmed by a child account administrator, the name of the linked account is displayed on the Account Hierarchy page.
1. **To set up** your Test Account, you need to be on the tabular view of your Ariba Network Production Account.

2. **Click** your name in top right corner and then select Switch to Test ID. The Switch To Test Account button is only available to the account Administrator. The administrator can create test account usernames for all other users needing access to the test account.

3. **Click** OK when the Ariba Network displays a warning indicating You are about to switch to Test Mode.

4. **Create** a Username and Password for your test account and click OK. You will be transferred to your test account.
   - Your Test account should be configured to match your Production account. This will ensure the testing results are consistent with what will result in Production. Once you have set up your test account, you are ready to receive a test purchase order.
   **Note:** Test account transactions are free of charge.

5. **The Network** will always display which mode you are logged into, (Production or Test). Your **Test account ID** has the suffix “-T” appended to your Ariba Network ID (ANID).
SECTION 3: Purchase Order Management

View Purchase Orders  Purchase Order Detail  Create PDF of PO
Manage POs
View Purchase Orders

1. **Click** on Inbox tab to manage your Purchase Orders.
2. **Inbox** is presented as a list of the Purchase Orders received by MAHLE.
3. **Click** the link on the Order Number column to view the purchase order details.
4. **Search** filters allows you to search using multiple criteria.
5. **Click** the arrow next to Search Filters to display the query fields. Enter your criteria and click Search.
6. **Toggle** the Table Options Menu to view ways of organizing your Inbox.

Can’t Find Your PO?
1. **View** the details of your order. The order header includes the order date and information about the buying organization and supplier.

**Note:** You can always Resend a PO which was not sent to your email address, cXML or EDI properly clicking **Resend** button.

Additional options: **Export cXML** to save a copy of the cXML source information **Order History** for diagnosing problems and for auditing total value.

2. **Line Items section** describes the ordered items. Each line describes a quantity of items MAHLE wants to purchase. Set the status of each line item by sending order confirmations clicking Create Order Confirmation. The sub-total is located at the bottom of the purchase order.
Manage POs
Create PDF of PO

1. Select “Download PDF” as shown.

Note: If the document exceeds 1000 lines or is larger than 1MB size, details are not shown in the UI. Therefore the detail is not included in the PDF generated.
SECTION 4: Other Documents

Order Confirmations
(OC)

Confirm Entire Order
Reject Entire Order
Update Line Items
Create Order Confirmation
Confirm Entire Order

This slide explains how to Confirm Entire Order.

1. **Enter** Confirmation Number which is any number you use to identify the order confirmation.

2. **If you specify** Est. Shipping Date or Est. Delivery Date information, it is applied for all line items.

3. **You can group** related line items or kit goods so that they can be processed as a unit.

4. **Click** Next when finished.

5. **Review** the order confirmation and click Submit.

6. **Your order confirmation is sent to MAHLE.**

**Note:** If your customer is allowing Supplier Network Collaboration (SNC), your Order Confirmation must be initiated within Ariba.

Once the order confirmation is submitted, the Order Status will display as Confirmed. When viewing documents online, links to all related documents are displayed. Click Done to return to the Inbox.
1. **From the PO view**, click the Create Order Confirmation button and select to Confirm Entire Order, Update Line Items for individual line items or Reject Entire Order.

2. **Enter a reason for rejecting** the order in case your buyer requires.

This example demonstrates the Reject Entire Order option. (Updating with Different Status will be explained later in the presentation)
Create Order Confirmation
Update Line Items

1. **Select** Update Line Items, to set the status of each line item.

2. **Fill** in the requested information (the same as for Confirm All option).

3. **Scroll** down to view the line items and choose among possible values:

4. **Confirm** – You received the PO and will send the ordered items.

5. **Backorder** – Items are backordered. Once they available in stock, generate another order confirmation to set them to confirm.

6. **Reject** – Enter a reason why these items are rejected in the Comments field by clicking the Details button.

**Note:** If your customer is allowing Supplier Network Collaboration (SNC), your Order Confirmation must be initiated within Ariba.
Confirm Order
Update Line Items - Backorder

1. **Enter** the quantity backordered in the Backorder data entry field.

2. **Click** Details to enter Comments and Estimated Shipping and Delivery Dates for the backordered items on the Status Details page.

3. **Click** OK when done.

**Note:** If using several statuses for a line item, the sum of the quantities for the statuses should equal the line item quantity.

4. **Click** Next.
Confirm Order
Update Line Items - Price Change

1. **Enter** the quantity in the Confirm data entry field.
2. **Click** Details to enter the details regarding the price change.
3. **Note** the new price in the Unit Price field on the Status Details page for the line item. Enter a Comment regarding the price change, if needed. Item substitutions for the requested part can also be communicated using the Supplier Part field.
4. **Update** the Description as needed and click OK when done.
1. **Enter** the quantity in the Reject data entry field to reject item.

2. **Click** the Details button to enter a reason for the rejection in the Comments field on the Status Details page.

3. **Click OK** when done.
1. **Continue** to update the status for each line item on the purchase order. Once finished, click Next to proceed to the review page.

2. **Review** the order confirmation and click Submit. Your order confirmation is sent to MAHLE.

3. **The Order Status will display** as Partially Confirmed if items were backordered or not fully confirmed.

4. **Generate** another order confirmation to set them to confirm if needed.

5. **Click** Done to return to the Inbox.
SECTION 5: Invoice Methods

Invoice Information
- Customer Specifications
- Invoice Rules

Invoice Methods
- PO Flip
- Blanket Purchase Order Invoices
- CSV Invoices
- Credit Memos
- Copy Invoices

Invoice Management
- Search for Invoice
- Check Invoice Status
- Invoice History
- Modifying Invoices
- Invoice Reports
- Invoice Archival
Review MAHLE Invoice Rules

These rules determine what you can enter when you create invoices.

1. Login to your Ariba Network account via supplier.ariba.com
2. Select the Company Settings dropdown menu and under Account Settings, click Customer Relationships.
3. A list of your Customers is displayed. Click the name of your customer (MAHLE).
4. Scroll down to the Invoice Setup section and view the General Invoice Rules.
5. If MAHLE enabled Country-Based Invoice Rules then you will be able to choose your Country in Originating Country of Invoice from the drop down menu.
6. Click Done when finished.
Invoice via PO Flip

To create a PO-Flip invoice (or an invoice derived from a PO that you received via Ariba Network):

1. From the home screen within your Ariba Network account, select the **Create** dropdown menu and select **PO Invoice**.
2. For PO Invoice select a **PO number**.
3. Click on the **Create Invoice** button and then choose **Standard Invoice**.
4. Invoice is automatically pre-populated with the PO data. **Complete all fields marked with an asterisk and add tax as applicable.** Review your invoice for accuracy on the **Review** page. If no changes are needed, click **Submit** to send the invoice to MAHLE.

**Can’t Find Your PO?**
Invoice via PO Flip

Header

Invoice is automatically pre-populated with the PO data. Complete all fields marked with an asterisk and add tax as applicable.

1. **Enter an Invoice #** which is your unique number for invoice identification. The Invoice Date will auto-populate.

2. **Select Remit-To** address from the drop down box if you have entered more than one.

3. **Tax and Shipping can be entered** at either the Header or Line level by selecting the appropriate radio button.

4. **You can also add some additional information** to the Header of the invoice such as: Special Handling, Payment Term, Comment, Attachment, Shipping Documents.

5. **Scroll** down to the Line items section to select the line items being invoiced.

**Note:** Support of additional Reference Documents & Dates is applicable for CSC customers only; Attachment file size should not exceed 40MB.
Invoice via PO Flip
Line Items

Line Items section shows the line items from the Purchase Order.

1. **Review or update Quantity** for each line item you are invoicing.

2. **Click** on the line item’s Green slider to exclude it from the invoice, if line item should not be invoiced OR click the check box on the left of the item and click Delete to remove the line item from the invoice. You can generate another invoice later to bill for that item.

3. **Select** the line item to which tax is to be applied using the Line Item # checkbox. To apply the same tax to multiple line items select those line items to be taxed at the desired rate.

4. To configure additional Tax Options within the Tax Category tool, use the **Configure Tax Menu** option.

5. **Check** Tax Category and use the drop down to select from the displayed options. Click Add to Included Lines.
**Invoice via PO Flip**

**Additional Tax Options & Line Item Shipping**

To configure additional tax options click Configure Tax Menu under the Tax Category drop down. Create new tax categories and as needed.

1. **Select** the Line Item to apply different tax rates to each line item.

2. **Click** Line Item Actions > Add > Tax. Upon refresh, the Tax fields will display for each selected line item.

3. **Click** Remove to remove a tax line item, if not necessary.

4. **Select** Category within each line item, then either populate the rate (%) or tax amount and click update.

5. **Enter** shipping cost to the applicable line items if line level shipping has been selected.
Review Invoice Allowances and Charges

If Allowances and Charges are included in the PO, these will convert to the Invoice at either Invoice Header or Line Item Level based on where the information is on PO:

1. **Header Allowance and Charges**
2. **Line level Allowance and Charges**
6. **Additional information** can be viewed at the Line Item Level by editing a Line Item.
1. To add comments at the line items select **Line Items**, then click at Line Item **Actions > Add > Comments**.

2. Upon refresh or **Update**, the Comments field will display. Enter applicable Comments in this field.

3. Click Next.
Invoice via PO Flip
Against Goods Receipt

You are required to include only received quantities on invoices.

1. **Click** the **INBOX** tab.
2. **Select** the Purchase Order you wish to invoice against.
3. **Select** the item(s) from the Receipt List that you would like to invoice.
4. **The invoice is now pre-populated** with the items within the Goods Receipt. You now have the ability to select the items to include and/or modify the Quantities on the invoice.
Invoice via PO Flip
Against Ship Notice

You are required to include only shipped quantities on invoices.

1. **Click** the INBOX tab.
2. **Select** the Ship Notice you wish to invoice against.
3. **The invoice is now pre-populated** with the items within the Ship Notice. You now have the ability to select the items to include and/or modify the Quantities on the invoice.
Invoice For Services
Add Service Lines to Invoices

1. Select the Add dropdown menu and select Add General Service OR Add Labor Service.

2. Enter details for General or Labor Service. General Service lines ask for limited details, including Service Start and End dates. Labor Service contains additional fields includes rate, term, and contractor information.
Invoice Against a Blanket Purchase Order
Locate Your BPO

To Create an Invoice from a Blanket Purchase Order (BPO):

1. **Locate** BPO in Inbox.
2. **Click Create Invoice** and Select **Standard Invoice**.
3. **Complete** Header Section information as needed, including all information marked **required** with an asterisk (*).

4. **Check** the box of the line item you plan on invoicing against.

5. **Click Create** at the bottom and select the appropriate option; Goods or Services.
6. **Update** required fields including the Quantity and/or Price fields to create the invoice line item. Click Create when done.
7. **Once** completed, your invoice line will appear as a sub-line (i.e. 1.1) showing the quantity being invoiced.

8. **Repeat** process as needed for each line.

<table>
<thead>
<tr>
<th>Blanket PO Items</th>
</tr>
</thead>
<tbody>
<tr>
<td>Line</td>
</tr>
<tr>
<td>------</td>
</tr>
<tr>
<td>7</td>
</tr>
<tr>
<td></td>
</tr>
<tr>
<td>20</td>
</tr>
</tbody>
</table>

9. **Click** Next to continue.

10. **Review, Save** or **Submit** as Standard Invoice.
Invoice via CSV
Download Template

1. **Access** a customer’s CSV file template, by going to **CVS Documents** and choosing **CSV Templates** under Download.

2. **Select** the correct template by finding MAHLE on the drop down menu, checking the radio button for Invoice, and clicking Download.

3. **Populate** the template and upload it from Create> CSV Invoice > Browse > Import.

4. **CSV files** are processed by Ariba Network and forwarded to the customer in the form of cXML message.

5. **For more information**, please read the CSV Upload Guide available from the Supplier Information Portal.
1. **Populate** the template and upload it from CSV Documents > Upload > Invoice CSV.

2. **CSV files** are processed by Ariba Network and forwarded to the customer in the form of cXML message.

3. **For more information**, please read the CSV Upload Guide available from the Supplier Information Portal.
Create a Credit Memo
Header Level

To create a credit memo against an entire invoice:

1. **Select** the **INBOX** tab.
2. **Select** the PO to be credited by clicking the radio button on the PO.
3. **Click** on **Create Invoice** and choose **Credit Memo** OR **select** **Credit Memo** from the **Actions** dropdown menu.
4. **Complete** information in the form of Credit Memo (the amount and taxes will automatically be negative). Make sure that all required fields marked with asterisks are filled in.
5. **Click Next**.
6. **Review** Credit Memo.
7. **Click Submit**.
Create a Credit Memo
Line Level Detail

To create a line level credit memo against an invoice:

1. **Select** the OUTBOX tab.
2. **Select** your previously created invoice.
3. **Click** the button on the Invoice screen for Create Line-Item Credit Memo.
4. **Complete** information in the form of Credit Memo (the amount and taxes will automatically be negative). Make sure that all required fields marked with asterisks (*) are filled in.
5. **Click Next**.
6. **Review** Credit Memo.
7. **Click Submit**.
Review, Save, or Submit Invoice

PO-Flip Invoice

1. **Review** your invoice for accuracy from the Review page. Scroll down the page to view all line item details and invoice totals.

2. If no changes are needed, click **Submit** to send the invoice to MAHLE.

3. If changes are needed, click **Previous** to return to previous screens and make corrections before submitting.

4. Alternatively, **Save** your invoice at anytime during invoice creation to work on it later.

5. You may resume working on the invoice by selecting it from **Outbox>Drafts** on your Home page.

6. You can keep draft invoices for up to 7 days.

**Note:** In the even of errors, there will be a notification in red where information must be corrected.
Copy an Existing Invoice

To copy an existing invoice in order to create a new invoice:

1. Select the OUTBOX Tab.
2. Either Select the radio button for the invoice you want to copy, and click Copy. OR Open the invoice you want to copy.
3. On the Detail tab, click Copy This Invoice.
4. Enter an new invoice number.
5. For VAT lines, make sure the date of supply at the line level is correct.
6. Edit the other fields as necessary.
7. Click Next, review the invoice, and save or submit it.
Quick Search:

1. **From the Home Tab**, Select Invoices in the Document type to search.
2. **Select** MAHLE from Customer Drop down menu.
3. **Enter** Document #, if known. Select Date Range, up to 90 days for Invoices and Click Search.

Refined Search: Allows a refined search of Invoices within up to 90 last days.

4. **Search** Filters from Outbox (Invoices).
5. **Enter** the criteria to build the desired search filter.
6. **Click** Search.
Check Invoice Status
Routing Status To Your Customer

Check Status:
If you configured your Invoice Notifications as noted earlier in this presentation, you will receive emails regarding invoice status.
You can also check invoice status from the Outbox by selecting the invoice link.

Routing Status
Reflects the status of the transmission of the invoice to MAHLE via the Ariba Network.

- **Obsoleted** – You canceled the invoice
- **Failed** – Invoice failed MAHLE invoicing rules. MAHLE will not receive this invoice
- **Queued** – Ariba Network received the invoice but has not processed it
- **Sent** – Ariba Network sent the invoice to a queue. The invoice is awaiting pickup by the customer
- **Acknowledged** – MAHLE invoicing application has acknowledged the receipt of the invoice
Check Invoice Status
Review Invoice Status With Your Customer

Invoice Status
Reflects the status of MAHLE’s action on the Invoice.

- **Sent** – The invoice is sent to the MAHLE but they have not yet verified the invoice against purchase orders and receipts
- **Cancelled** – MAHLE approved the invoice cancellation
- **Paid** – MAHLE paid the invoice / in the process of issuing payment. Only if MAHLE uses invoices to trigger payment.
- **Approved** – MAHLE has verified the invoice against the purchase orders or contracts and receipts and approved if for payment
- **Rejected** – MAHLE has rejected the invoice or the invoice failed validation by Ariba Network. If MAHLE accepts invoice or approves it for payment, invoice status updated to Sent (invoice accepted) or Approved (invoice approved for payment)
- **Failed** – Ariba Network experienced a problem routing the invoice
Access any invoice:

1. **Click** on the History tab to view status details and invoice history.

2. **History and status comments** for the invoice are displayed.

3. **Transaction history** can be used in problem determination for failed or rejected transactions.

4. **When you are done** reviewing the history, click Done.
Modify an Existing Invoice
Cancel, Edit, and Resubmit

1. **Click** the Outbox tab.
2. In the Invoice # column, click a link to view details of the invoice.
3. **Click Cancel.** The status of the invoice changes to Canceled.
4. **Click** the Invoice # for the failed, canceled, or rejected invoice that you want to resubmit and click Edit.
5. **Click Submit** on the Review page to send the invoice.
Download Invoice Reports
Learn About Transacting

Reports help provide additional information and details on transactions on the Network in a comprehensive format.

1. **Click the Reports tab** from the menu at the top of the page.
2. **Click Create**.

- **Invoice reports** provide information on invoices you have sent to customers for tracking invoices over time or overall invoice volume for a period of time.
- **Failed Invoice reports** provide details on failed and rejected invoices. These reports are useful for troubleshooting invoices that fail to route correctly.
- Reports can be created by Administrator or User with appropriate permissions.
- **Bronze** (and higher) members may choose **Manual** or **Scheduled** report. Set scheduling information if Scheduled report is selected.
Invoice Reports

3. **Enter** required information. Select an Invoice report type — **Failed Invoice** or **Invoice**.
4. **Click Next**.
5. **Specify Customer** and **Created Date** in Criteria.
6. **Click Submit**.
7. You can view and download the report in CSV format when its status is **Processed**.

For more detailed instructions on generating reports, refer to the **Ariba Network Transactions Guide** found on the **HELP** page of your account.
Configuring invoice archiving allows you to specify the frequency, immediacy, and delivery of zipped invoice archives. If you wish to utilize it, please follow these steps:

1. From the **Company Settings** dropdown menu, select **Electronic Invoice Routing**.

2. Select the tab **Tax Invoicing and Archiving**.

3. Scroll down to **Invoice Archival** and select the link for **Configure Invoice Archival**.

4. Select frequency (Twice Daily, Daily, Weekly, Biweekly or Monthly), choose Archive Immediately to archive without waiting 30 days, and click **Start**.
   - If you want Ariba to deliver automatically archived zip files to you, also enter an Archive Delivery URL (otherwise you can download invoices from your Outbox, section Archived Invoices).
   - **Note:** After Archive Immediately started you can either **Stop** it or **Update Frequency** any time.

5. You may navigate back to the **Tax Invoicing and Archiving** screen in order to subscribe to **Long-Term Document Archiving** for an integrated archiving solution. (More details within the Terms and Policies link.)
